Dear Garth,

I just wanted to write to express my gratitude for being part of the Laser Electrical and Plumbing Conference at the Sheraton Mirage on Saturday.

The Conference was a complete revelation in its attitude, flow, content and production. I've been a motivational speaker for the past 26 years since winning Olympic Gold for Australia, and in all that time I have never left a conference with the feeling I enjoyed on Saturday. I drove out of the Gold Coast truly inspired from being a guest at the Laser Conference. The Conference attendees must have been blown away after four days! Your expert event coordination must help the client's bottom-line enormously at years' end.

The pre-event briefings, client information, travel arrangements, stage production and event coordination were all first class and allowed me to perform at my best. The feedback I received from the executives through to the members was greatly appreciated.

The nighttime event at Movie World was absolutely brilliant and will live with me for a very long time. To navigate hundreds of conference attendees through a big production like that takes an enormous amount of skill.

Garth your company and crew are at the top of its game and I can't wait to work with you again.

Yours sincerely,

Duncan Armstrong O.A.M.
